

2013 NYU Cataract Surgery Course

Saturday, May 18th 2013 New York Simulation Center (462 First Ave. at 28th St.)

Objective

This introductory course on cataract surgery aims to provide a comprehensive introduction to the skills required for successful phacoemulsification surgery.

The main highlights include didactic lectures on cataract surgical techniques as well as a phaco and suturing wet-lab utilizing the Kitaro artificial eye system. There will be one-one-faculty supervision in the wet-lab which will provide dedicated time to interact with the surgical faculty.

Directions

NYU Simulation Center

- The main entrance to Bellevue is located at 27th St. and 1st Ave. Please show any photo ID to pass through security.
- Enter through the atrium into the archway toward the emergency room.
- Turn right at the ER into the rotunda (Pass the hospital police and café on the right).
- Pass through the rotunda and take the “D” elevators to the 3rd floor.
